

Our Services

Motor Vehicle Accidents

A car accident is traumatic! Manitoba Public Insurance will pay for Physiotherapy treatment required for Motor Vehicle Accident injuries. Our Physiotherapists are skilled and experienced in helping patients recover from whiplash, musculoskeletal injuries and neurological issues.

We work as a team with your Physician, Manitoba Public Insurance, and other health professionals to ensure a safe and co-ordinated approach to your care.

Treatment will initially focus on decreasing your pain, then restoring your movement and strength, with the goal of a safe return to your work, school, hobbies, and sports.
